AN ISO 9001:2015 QMS, ISO 14001:2015 EMS & ISO 45001 : 2018 OHSMS CERTIFIED COMPANY

## ABOUT US...

Tangent Science is a manufacturer of range of innovative new edge woven technical textiles made from Carbon Fiber, Aramid and Fiber Glass that find application in composites and advance composites.

Our products deliver high strength, high temperature, lightweight solutions that provides structural integrity, thermal, environmental protection, or decorative appeal in countless everyday products from circuit boards to surf boards, from mufflers to snowmobiles, aeroplanes to armour and everything in between.

Tangent Science designs and manufactures technical materials allowing cutting-edge companies in various new age applications, to anticipate technological and functional evolutions and adapt. Our long standing commitment to technical leadership, and to research and development is reflected in the constant introduction of new products and solutions to address our customer needs.

**We provide advanced composite solutions for**

## OUR CORE VALUES...

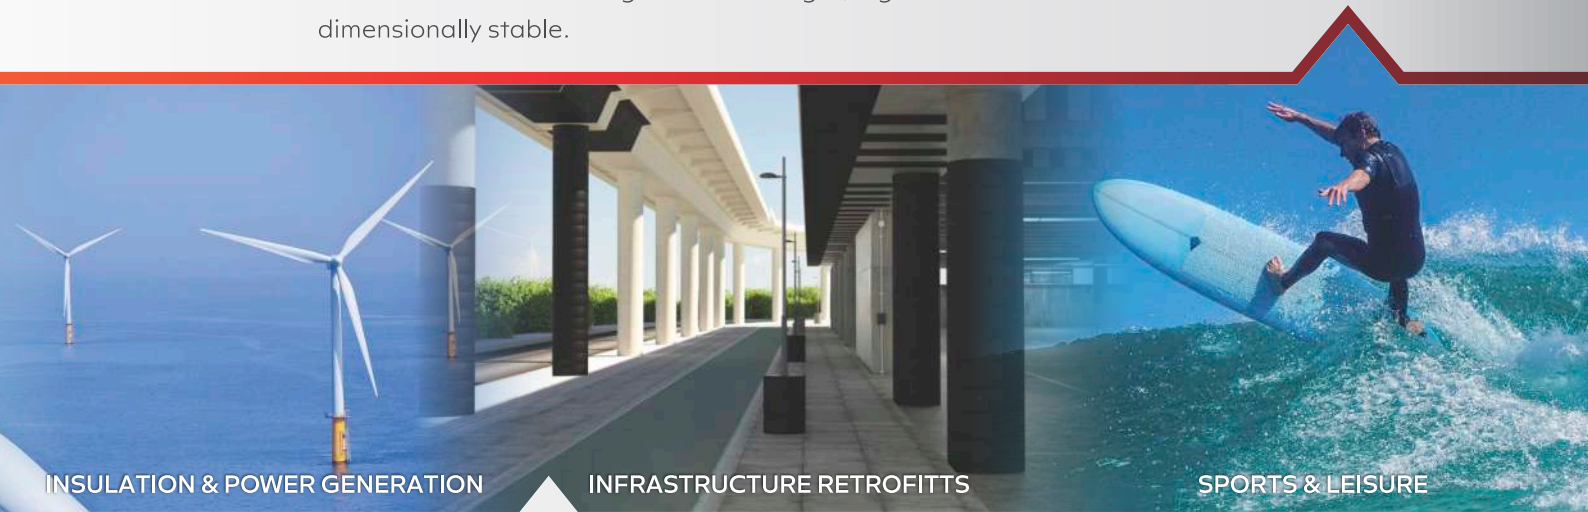

Spurred on by its pioneering and entrepreneurial spirit, Tangent Science is resolved to provide cutting edge solutions fully made in India matching international standards. Tangent Science engineers high performance fabrics to meet the stringent criteria of the Advanced Composites industry. Three different fibres are utilized: Carbon Fiber, Aramid and Fibreglass. Each Fiber and Fabric woven thereof offers its own unique advantages when engineered, thus allowing the highest performance possible from the end product.

Carbon Fiber Fabrics provides very high strength & high thermal conductivity and is very low in weight & density.

Aramid Fiber Fabrics are several times stronger than steel, light weight and nonflammable.

Fiber Glass Fabrics has high tensile strength, high heat & chemical resistance and is dimensionally stable.

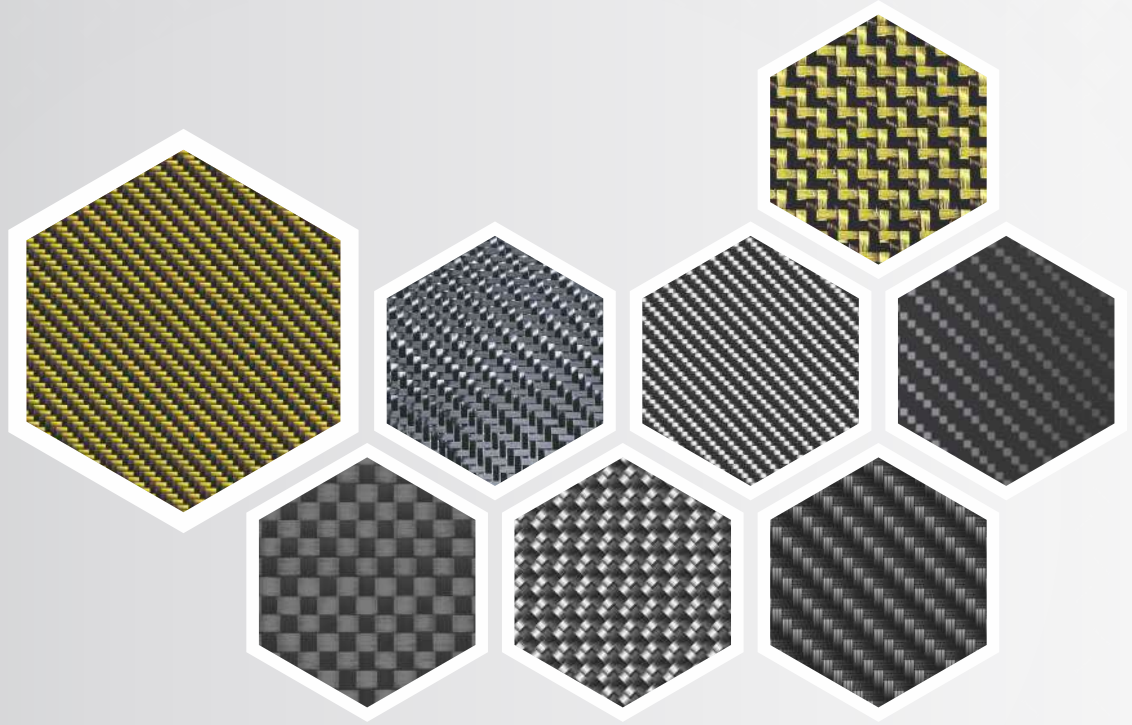

INSULATION & POWER GENERATION

INFRASTRUCTURE RETROFITTS

SPORTS & LEISURE

## WHAT CAN TANGENT SCIENCE DO FOR YOU?

- Research and development of new products
- Tailor-made solutions in Woven Fabrics; we think along with you to solve your technical problems.
- Delivery as per customer schedule
- Hands-on mentality; if required, we'll come to your location to take a look at your technical challenge, take measurements, and provide advice on how to solve your problem
- All Tangent Science employees are dedicated to delivering the best available service to you
